Strawberry Jello Mold
From Sharon Schwartz

Ingredients:

2 packages strawberry jello
1 cup boiling water
2--10 oz. packages of frozen strawberries
1 large can crushed pineapple drained
1 cup chopped walnuts
1-16 oz. container sour cream

Combine all ingredients but sour cream. Pour 1/2 of mixture into bowl or 10 x 10 shallow dish. Let sit just long enough to allow you to spread sour cream over mixture. Place remaining strawberry mixture over sour cream. Refrigerate overnight.
